PIZZAS														
<i>Note for the below, the allergens for the toppings on the pizza (excluding cheese) are mapped out seperately from the cheese type and base type. This allows the customer to see what dish can be made purely dairy or gluten-free by just replacing the cheese or base. For example, "Veggie Pesto" CANNOT be made dairy-free (even if you replace with vegan cheese) as the toppings have dairy in them. Alternatively, "Ratatouille" CAN be made dairy-free by replacing with vegan mozzarella, as the toppings are dairy-free.</i>
